Re: Docket # RU-00000A-14-0014

Commissioners;

These rules are just more "smart" grid fraud based on twisted word plays.

I've proved repeatedly that "smart" meters are a huge violation of individual privacy. The rules you have devised in your lame attempt to deal with this problem only address confidentiality, not privacy.

Once personal data is taken it is no longer private. Period.

Get clear: What you are really addressing here is *confidentiality*, not privacy.

As I have said before, these rules are lipstick on a pig

Sincerely,

Warren Woodward
